Your special attention is called to the article of the Contract entitled "Negotiated Overhead Rates". When final rates for each period are determined in accordance with this article, we shall send you an amendment which will incorporate into the Contract a schedule setting out the rates and related data as thus determined. Until final rates are determined and subject to adjustment at that time, you will bill and be paid, according to the terms of this article, either at negotiated provisional rates or at billing rates. The distinction between the two is that negotiated provisional rates must be incorporated into the Contract by amendment, whereas billing rates may be adopted and changed informally, merely by agreement of the parties. For the latter reason we suggest that billing rates be used under this Contract. The following are proposed as billing rates to be effective from the inception of the Contract until changed or superseded pursuant to the terms of the "overhead" article:

Departmental Overhead - 47% of Direct Labor Dollars

- 87% of Direct Labor Dollars General Laborator1 G & A - 5.2% of total costs exclusive of G & A

If we do not hear from you promptly to the contrary we shall assume that these billing rates are satisfactory to you.
